MASTER YOUR CAMPUS

The only utility vehicles that can keep up with you.

You're tasked to find safe and cost-effective solutions to transport guests and materials around campus. We have a full lineup of transporters and utility vehicles purpose-built for efficiency and performance. These quiet, zero-emissions electric vehicles cost pennies a day to operate but do the work of a small truck or van.

CARRYALL

CARRYALL

UNMATCHED VERSATILITY, EXCEPTIONAL RELIABILITY

Carry on the tradition of a well-maintained campus.

Facilities, grounds, security and fleet managers at schools and universities are tasked with moving quickly from job to job. Boosting sustainability and safety, Club Car utility vehicles are highly customized to complete the tasks needed to elevate the on-campus experience for students, staff, and visitors for generations to come.

ALUMINUM FRAME FOR LONGER LIFE

While most utility vehicles are built on a steel frame, Club Car features automotive-grade aluminum frames. Our frames are strong, rustproof, and impact resistant to enhance overall performance and prolong the life of your vehicle.

OUTFITTED FOR THE TASK AT HAND

Carryall UTVs are built to your needs.

No team ever has just one job to do—it's a series of tasks with different needs for each. With the industry's widest range of commercial accessories, such as ladder racks, refreshment centers, specialized lighting, and more, we can customize your new Club Car with application-specific features to improve productivity.

FACILITIES ENGINEERING

Our facilities engineering Carryall vehicle comes outfitted with a van box or dual-locking tool box system to help your team stay on the move.

GROUNDS MAINTENANCE

Club Car's new Carryall 700 grounds maintenance vehicle with hose reel gives your team the power and reliability to get the job done on any terrain.

SECURITY

Security is more important than ever, and the Carryall 300 security vehicle is designed to flex with the changing needs of your campus.

REFUSE REMOVAL

The Carryall 700 with heavy-duty bed lift and Carryall 700 with high dump are cost-effective vehicle solutions for on-campus refuse removal.

INDUSTRY-LEADING BED ATTACHMENT SYSTEM

VersAttach™ allows you to easily store tools and equipment outside the bed, freeing up additional space while protecting your gear.

IMPRESSIVE CAMPUS TRANSPORTATION

The simplest way to a comprehensive transportation strategy.

When you need to move people, nothing gets the job done better than transport commercial vehicles from Club Car. Both comfortable and safe, you can now go anywhere on campus with our versatile line of utility, transportation, and street-legal vehicles while reducing your cost of ownership and carbon footprint.

TRANSPORTER | TRANSPORTER™ XL

MADE FOR CREWS AND CARGO

Available with a fold-down rear seat to carry up to 300 lbs and equipped with rustproof aluminum chassis, body, and bed.

Tempo 2+2

THE MOST ECONOMICAL PEOPLE MOVER

Boasting the tightest turn radius in the industry, the Tempo 2+2 adds comfort to sporty handling.

Villager 6 | Villager 8

TRANSPORT PASSENGERS IN STYLE

With seats for up to 8 passengers, the Villager series is perfect for campus tours and special events.

Villager 2+2

THE ULTIMATE IN EFFICIENCY

Expand your area of operations, lower energy and maintenance expenses, and eliminate carbon emissions—all at once.

CARRYALL 710

ONE VEHICLE—POWER AND EFFICIENCY

Truck-like performance coupled with the economy and versatility only a street-legal electric vehicle can deliver.

CARRYALL 510

MORE CAPACITY FOR THE ROAD AHEAD

Add a six-foot-long bed and you have a heavy-duty work vehicle that can travel nearly anywhere.

STREET LEGAL AND READY FOR THE ROAD AHEAD

The most practical way to get from point A to point B.

With automotive power, capacity, and durability in an easy-to-use and maintain design, Club Car low-speed vehicles make getting from jobsite to jobsite simple, safe, and efficient for your entire team.

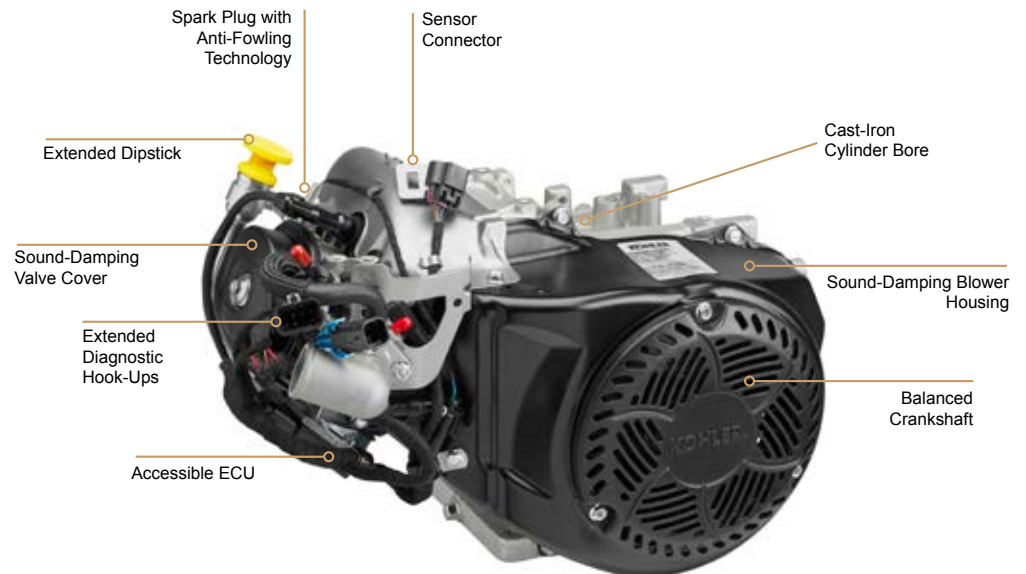

CARRYALL
